

NewGelTM+UV

The 1st and only

**SILICONE SCAR GEL +
SPF 30 MINERAL SUNSCREEN**

PROTECTS POST-OP SCARS

**HELPS TO PREVENT HYPERTROPHIC SCARS
AND KELOIDS WHILE MINIMIZING RISK OF
HYPERPIGMENTATION DUE TO SUN EXPOSURE**

- Ideal for areas exposed to the sun, including face, neck, chest, arms and hands
- For use after Mohs surgery, biopsy, excision, laser treatments or facial plastic surgery
- 20% zinc oxide sunscreen—preferred by dermatologists over chemical sunscreens
- Does not irritate sensitive skin, and does not block pores or cause blemishes on acne-prone skin
- Medical grade silicone
